

日天子周而復始地運行，照曜著大地萬物，
晝夜不停。太陽出來了名「晝」，太陽沒有
名「夜」。晝本來是無所從生，夜也無所從滅。

——摘自宣公上人《華嚴經淺釋》十定品第二十七

*The god of sun, who parades all about with brilliant illumination,
day and night without pausing. Whether day or night, he doesn't
stop. Emergence of the sun is called day. Disappearance of the sun
is called night. In fact the day does not come into being. And the
night does not cease to be.*

*— An Excerpt from Venerable Master Hsuan Hua's Commentary on
Chapter Twenty Seven, "The Ten Samadhis," of the Avatamsaka Sutra*
